NOTICE OF HEARING

(Application for License Renewal)

This proceeding arises out of the April 23, 2007, application of Entergy Nuclear Operations, Inc. (Entergy) to renew its operating licenses for Indian Point Nuclear Generating Units 2 and 3 (Operating License Nos. DPR-26 and DPR-64) at its Indian Point Energy Center in Buchanan, New York. Entergy seeks to extend these licenses for an additional twenty years beyond the current expiration dates of September 9, 2013 (Indian Point Unit 2) and December 12, 2015 (Indian Point Unit 3). On August 1, 2007, the Commission published a notice of opportunity to request a hearing on Entergy's license renewal application.<sup>1</sup> Requests for hearings and petitions to intervene were filed by sixteen entities: the State of New York (New

These thirteen contentions, which challenge the sufficiency of Entergy's license renewal application, were: NYS-5 (concerning buried pipes, tanks, and transfer canals), NYS-6/7 (concerning non-environmentally qualified inaccessible medium-voltage and low-voltage cables and wiring), NYS-8 (concerning electrical transformers), NYS-9 (concerning energy conservation in the "no-action" alternative analysis), NYS-12 (concerning decontamination and cleanup costs associated with severe accidents), NYS-16 (concerning underestimation of cleanup costs in light of underestimated population projections in severe accidents), NYS-17 (concerning land values in the no-action alternative to relicensing), NYS-24 (concerning containment structure integrity), NYS-25 (concerning embrittlement of reactor pressure vessels and associated internals), NYS-26A/RK-TC-1A (concerning metal fatigue on key reactor components), RK-TC-2 (concerning flow-accelerated corrosion on reactor components), RK-EC-3/CW-EC-1 (concerning leaks from spent fuel pools), and CW-EC-3 (concerning disproportionate environmental justice impacts on minority, low-income, and disabled populations near Indian Point).

The NRC Staff issued its final Safety Evaluation Report (SER) in November 2009<sup>8</sup> and a first supplemental SER in August 2011.<sup>9</sup> The NRC Staff issued its draft Supplemental

Board intends to begin taking oral testimony on October 15, 2012, in Westchester County, New York. We anticipate addressing the admitted contentions in the following order:

1. NYS-12C
2. NYS-16B
3. RK-TC-2
4. NYS-17B
5. NYS-37
6. NYS-5
7. NYS-8
8. NYS-6/7
9. CW-EC-3A
10. RK-EC-3/CW-EC-1<sup>15</sup>

We anticipate that the hearing will continue on October 16, 17, 18, 22, 23, and 24. Current plans tentatively call for the hearing to convene again on December 10 and run through December 14 as needed. Due to the proprietary nature of some information discussed in the evidentiary submissions associated with contentions NYS-6/7 and RK-TC-2, the Board may be required to close portions of the oral hearing on those contentions from public viewing.

Despite the NRC Staff's ongoing safety and environmental reviews, and because it has received no objections in light of 10 C.F.R. § 2.332(d) from the participants in this proceeding, the Board has tentatively decided that it is efficient to proceed to the evidentiary hearing before

contention RK-EC-8 and portions of contention NYS-38/RK-TC-5 that relate to NYS-25. The Board will conduct the oral hearing on contentions NYS-25, NYS-26/RK-TC-1B, NYS-38/RK-TC-5, and RK-EC-8 after receiving the evidentiary submissions for each of the contentions. The time and date of subsequent oral hearings will be announced by order of the Board.

<sup>15</sup> The order in which we anticipate hearing contentions is subject to change if the NRC Staff's brief in response to our June 7, 2012 Order warrants such a change. See Licensing Board Order (Ordering the NRC Staff to Address Board Questions) (June 7, 2012) (unpublished).

issuance of the NRC's additional environmental and safety review documents. This decision is based on our understanding that the NRC's recent draft SEIS will not address any issue raised in any contention other than RC-EC-8 and that the second supplemental SER will not address any issue raised in any contention other than NYS-25 and those portions of NYS-38/RK-TC-5 that have previously been defined.<sup>16</sup> As noted above, at footnote 15, we issued an Order on June 7, 2012, seeking input from the parties on these assumptions. The Board will notify the parties if our plans to proceed to hearing in October 2012 on the ten contentions listed above change based on the parties' responses to that order. After the NRC's additional safety and environmental documents have issued, the Board will provide a schedule on how it will hear all remaining contentions.

As provided in 10 C.F.R. § 2.315(a), any person not a party to the proceeding may submit a written limited appearance statement setting forth his or her position on the issues in this proceeding. These statements do not constitute evidence but may assist the Board and/or parties in defining the issues being considered.
